

McGill Daily

Vol. 4. No. 6.

Montreal, Wednesday, October 7, 1914.

PRICE FIVE CENTS.

CAN you afford to buy clothing without considering its "wearing value?"

Few men can.

It is that one point in Campbell's Clothing which has established its popularity with men who must get good service from their clothes.

The price is not high when the quality is considered.

Each garment gives the most satisfactory kind of service to the man who wears it.

ARTS '16.
Will hold the first meeting of the year in Room 5 of the Arts Building on Wednesday for the election of officers and other important business.

FRENCH CLUB.
A meeting of the executive of the French Club has been called for Thursday at 4 p.m. in the Union.

MARITIME CLUB.
Meeting of the Executive of McGill Maritime Club on Thursday evening at 7 p.m. at Strathcona Hall, to discuss matters for the present year. Will every member deem it his duty to be on hand.

B. O. KINNEY,
President.

SCIENCE FRESHMEN.
Owing to an oversight, the Science Freshmen were omitted in the announcement of the Freshmen receptions. All first year Science men are cordially invited to be present with the Meds. to-night at Strathcona Hall.

ATHLETIC ASSOCIATION.
There will be a meeting of the executive of the Athletic Association on Wednesday at 4 p.m. in Strathcona Hall. Business, revision of constitution.

R. H. STRUTHERS,
Secretary.

HANDBOOKS.
One hundred McGill handbooks, printed by the Y.M.C.A., and containing much valuable information, will be on sale on the R. V. C. this week for ten cents (10c) per copy.

RECEPTION.
The annual Freshmen reception of the Y. W. C. A. will be held in the common room of the R. V. C. at four o'clock, on the afternoon of Wednesday, October 14.

PERMISSION.
It is requested that permission for the use of the Strathcona Hall for meetings be obtained before announcing them, in order that hours that will not clash with other arrangements can be arranged.

CLASS MEETING R. V. C. '16.
A meeting of R. V. C. '16 will be held this afternoon at one o'clock, in the English Room of the R. V. C. Business: Election of officers.

CLASS MEETING '17.
There will be a class meeting of R. V. C. '17 on Thursday, October 8th, at one o'clock in the English Room of the R. V. C., to elect officers for 1914-15.

UNION COMMITTEE.
Meeting of the House Committee of the Union Wednesday, the 7th, at 5.20.

THE BAND.
There will be a meeting of the band

THE Y.M.C.A. RECEPTION A BIG SUCCESS

Prof. Macnaughton gave the Best Speech He Ever Made to Freshmen

"DUTY OF ALL TOPREPRE" England Now Playing Most Glorious Part in her History

It is a very serious duty for every young man here who has anything of a man in him to get ready for what is needed of him. There is not one man here who, with a little drill in musketry, would not be the equal of two or three Germans," said Professor John Macnaughton last night in a characteristic address to the Freshmen of the Faculties of Arts and Law at the Y.M.C.A. reception in the Strathcona Hall.

"Do not forget that every man here has his sacred duty to perform," continued Professor Macnaughton, in the course of a stirring appeal to the patriotism of the hundred or more students who crowded the reception room to the doors. The professor regretted his own inability to join the troops at the front, but showed his readiness to face the music by leading the singing of "Rule Britannia," the younger voices joining in the chorus. Professor Macnaughton was particularly happy in relating the stories of Scotch valour at the front, quoting from Mr. Crookshanks, the remarks of the Scotchman who thought that when the two Scotch regiments at the front were reinforced, the Allies would have little difficulty in sweeping the two million Germans before them. Another canny Scot didn't mind odds at three to one, but suspected that at ten to one they would have to use strategy.

The professor dealt in a passing remark with the lukewarm attitude of Bourassa, and compared his action to Continued on page 2

BIBLE STUDY CAMPAIGN OFF BY GOOD SUPPER

Last evening an enthusiastic supper was held in Strathcona Hall, at which all the canvassers for Bible Study met to arrange for the campaign to be held on Wednesday, Thursday and Friday. There were thirty-five men present, and Mr. E. A. Corbett presided over the meeting.

After an excellent meal, provided by the House Committee, Mr. Corbett called on Mr. W. R. Burgess, of Emmanuel Church, to say a few words. Mr. Burgess summed up the reason for Bible Study by saying that a college course is full of opportunities, which we should make the most of. One of these opportunities was keeping in touch with the big thoughts of life. One hour a week of Bible Study enabled us to discuss with our fellows some of the greatest questions in the world.

Mr. Corbett then announced the method to be pursued in the campaign and gave out a complete list of Bible Class Leaders, with the hours at which classes are to meet, which was as follows:—
FIRST YEAR.
Student Standards of Action.
Leaders:
Dr. George Smith, for 1st year Meds., 4 p.m., October 13th.
G. H. Fletcher, B.A., 7 p.m., 19th October.
E. A. Corbett, B.A., 3 p.m., 15th October.
A. B. Rosevear, Arts '16, 3 p.m., 12th October.
G. Heslam, Arts '16, 3 p.m., 12th October.
F. Fowler, B.A., 2 p.m., 11th October.
Art. Brooks, Arts '16.
Art. Brooks, Arts '16, 2 p.m., 11th October.
Prof. Dodds, Science, 4 p.m., October 14th.
Ernest Penon, B.Sc.

NEW STUDIES IN ACTS.
Leaders:
W. de M. Seriver, Med. '18, 3 p.m., October 15th.
W. Luvry, Med. '16, 2 p.m., October 11th.
Jack Copeland, Arts '16, 3 p.m., October 19th.
G. Dewey, M.A., 7 p.m., October 14th.

"THE EARLIER PROPHETS."
A Study of the Minor Prophets.
Leaders:
Iverson Miller, B.A., 7.30 p.m., October 13th.
W. R. Burgess, M.A., 7 p.m., October 13th.
And others to be announced.

"THE WILL OF GOD AND A MAN'S LIFE WORK."
Leaders:
L. H. Nichols, Arts '14.
J. H. West, Med. '16.
And others.
The church classes meet every Sunday at 3 o'clock.

TENNIS.
All who wish to enter for the individual championship in the R. V. C. tennis tournament, will please sign up to-day (Wednesday) before 6 p.m., as no more entries will be received thereafter.

EDITORIAL BOARD.
A meeting of the Editorial Board of McGill Annual 1916 will be held at the R. V. C. at 8 p.m. on Thursday evening. All members are requested to be present to discuss some important matters.

DEAN ADAMS WILL SPEAK

On Saturday to the Freshmen in Room 33

Dr. F. D. Adams, Dean of the Faculty of Applied Science, will address the First Year men in Science at 9 a.m. on Saturday morning next, October 10th, in room 33. This address has formerly been given the first day of the session, but was this year unavoidably delayed.

UNIVERSITY LECTURE AT R. V. C. HALL

G. R. Mines Gave the Annual Founder's Day Address

"SCIENCE AND INDIVIDUALITY"

The Subject Was Treated in an Unusually Interesting Way

A number of students from the faculties assembled in the Convocation Hall of the Royal Victoria College on Wednesday afternoon, to hear the annual University lecture, which was given this year by Mr. G. R. Mines, professor of Physiology.

The lecture, as well as being an example of the most excellent literary style, set forth the subject in an unusually interesting and eloquent way, which was admirably suited to winning the attention of students of Medicine. In fact, the chief purpose of the speaker was to show the relation of the study of Physiology to all the other branches of science—to show it as a valuable and practical contribution to classical investigation, to depict it as the natural guide to a thorough knowledge of all the various departments of Biology, and to explain its inestimable worth as a factor in the progress of Experimental Psychology. It was at this point that Mr. Mines made clear the inevitable relation between physical peculiarities and mental and moral traits and tendencies, and showed the practical worth of scientific knowledge in any proper study of the problems of mankind.

In closing, the speaker dwelt upon the meaning of a University, and expressed the hope that in each one of the many departments of which a large institution like McGill is composed, the important branch of science which he represents may meet with the interest and appreciation which is its due.

HOLIDAYS ? FOR SCIENCE

Summer Essay and Reading Announcements

Notices were posted in the Science Building yesterday in reference to the Summer Essays, examinations in summer reading and about lectures Monday, Oct. 12, being a holiday the summer essays need not be handed in until Tuesday, Oct. 13, at the Dean's office. There will be no lectures on the afternoon of Wednesday, Oct. 7 for second and third year students in the Faculty of Applied Science and the examinations in summer reading for second and third year students will be held in the second year draughting room on Wed., Oct. 7th, at 1 p.m.

RAILWAY CLUB ORGANIZED FOR THE SESSION

Informal Discussion of Season's Plan Took Place

A meeting of the Railway Club was held yesterday afternoon at 3.30 in room No. 35 of the Engineering Building. Buck Fyles, past president, took the chair and called for nominations of presidency. W. S. Sutherland was unanimously elected to that office. He took the chair and further elections resulted in the appointment of E. L. Schellems, Vice-President; W. H. Smith, Secretary-Treasurer, and A. Legault, E. Leslie, Committee.

LEADER OF THE ROOTERS' CLUB PICKED

Frank Common Selected and Led the First Practise of the Year Last Night

VERY IMPORTANT TO ASSIST HIM

This Organization a Very Powerful Adjunct to Football Team

Mr. Jack Hall, Manager of the Football Team, opened the meeting of the Rooters' Club last night. In a few words he outlined the plan of the Rooters' Club, stating that as there was so very little time to prepare for Saturday's game he hoped that every man would turn out to all the practices. He then introduced Mr. George Laing, President of the Football Club, he said that if every man only knew the tremendous help and encouragement the Rooters' Club did to the players themselves he was sure that every man in the University would join the Rooters' Club. He then announced that Mr. Frank Common had been selected to act as manager for this season and hoped that they would give him their best support. Mr. Common, in a very businesslike manner said little, but immediately started the men on the old songs and new parodies. The majority of the men present were Freshmen and the manner in which they rendered the yells and songs did fair to eclipse all previous efforts of the Rooters' Club. Mr. Charles R. Gibb, leader of the band, was present and will have organized by Saturday a complete band to aid the club on Saturday. To-night at 7.15 p.m. there will be a meeting and it is the duty of every student in McGill University to aid in this manner the victory of the football club. It is specially hoped that men in the 3rd and 4th years will give this matter their consideration and set a good example to the first two years.

DATES NOW SET FOR FRESH EN PHYSICAL EXAM.

The following is the list of dates upon which the first year men are to take the physical examination. No student will be permitted to remain at college after November 1st unless this examination is taken.

ARTS AND SCIENCE.
Men whose surnames begin with:
A. Thursday, October 8th
B. Tuesday and Wednesday, October 13th and 14th
C. Thursday, October 15th
D. E. F. Monday, October 19th
G. H. Tuesday, October 20th
I. J. K. Wednesday, October 21st
L. M. Thursday, October 22nd
Mac. Monday, October 26th
N. O. P. Tuesday, October 27th
Q. R. S. Wednesday, October 28th
T. U. V. W. Thursday, October 29th
LAW AND MEDICINE.
A. B. Thursday, October 8th
C. D. Tuesday, October 13th
E. F. G. H. I. J. Wednesday, Oct. 14th
K. L. Thursday, October 15th
M. Monday, October 19th
N. R. Tuesday, October 20th
S. Wednesday, October 21st
T. to W. Thursday, October 22nd
It is advisable to take this examination on the dates mentioned above, as otherwise the student will have an unnecessary amount of trouble.

ARTS FRESHMEN ELECT PRESIDENT

John Abbott President at Arts '18 First Class Meeting

Arts Freshmen held their first meeting yesterday morning, when, under the able guidance of John Abbott, they elected their President, Gilbert Campbell. Gregor Barclay addressed a few words in support of the McGill Regiment, and Harry Hearty asked for men for the Daily, and the following six men were chosen: Farthing, Common, Planders, Rutherford, Symonds and Hutchison.

Correspondence

The Editor, McGill Daily:
Dear Sir,—No doubt many students will learn with regret of the enforced retirement from college of three and possibly four of the senior football team. I believe that these men, along with the vast majority of the members of their class, are being forced to leave the University for the time being at least, through having failed to pass an examination which they recently tried.
Now, sir, it is no unusual thing for McGill students to be placed in a similar position to the one in which these chaps find themselves at the present time. In fact, it is, unfortunately, a rather frequent occurrence. It is, however, quite unusual for such a large number to fail to pass the same examination when the papers are marked by the same man, as I am led to understand the papers were on this occasion. It is not for anyone but the proper authority to decide whether or not these men are qualified to continue their studies at McGill, but, in view of the large number who have been "blacked" from the same class, and in view also of the hard times, which may make it impossible for them to continue at college with no prospect of being any nearer to ob-

The New Top Coats from Burberry and Other Makers are here ready for you to try on.

The showing of these new coats is a very important part of our business just now; we have more than a thousand of very fine Overcoats that we want you to see. Many of these are tailored by Burberry, others are from our own wholesale tailors. Balmacaans, Slip-ons, Raglans, Chesterfields, and Belted Back Coats in fabrics that will not be seen elsewhere. Men and young men both will find here their own particular style at \$20 to \$35.

Burberry Weatherproof Coats—rainproof without containing any rubber—are strongly featured here; some unlined, some wool lined, and others silk lined. \$18 to \$25.

We're showing the best of the new English, French, Italian, and American Hats for Fall—every new shade and shape to choose from, at \$3.00 to \$5.00.

New Wash Gloves, \$1.00, \$1.50. New Silk Hats, \$6.50 to \$8.00.

THE ROOTERS' CLUB

BANG! The Rooters' Club got away last night to the best start in its existence.

Frank Common, well known to every McGill man, has taken over the leadership, and is a real live wire. He has the contagion himself, and he has the ability to impart it to the Rooters, as last night's meeting showed.

Meetings will be held every night at 7.30 sharp in Strathcona Hall and every man, whether he be Freshman, Sophomore, Junior or Senior should be there—there with the goods, too!

Lots of new songs are needed, so now, all you fellows who have talents in that direction, is your chance, and we know you will rise to the occasion.

The Rooters' Club has the support of every member of the Football Club from the President down to the trainer, as well as that of every enthusiastic student, and when the team wearing the Grand Old Red and White trots out on the field on Saturday afternoon let them be given the greatest welcome that lies in our power.

COLLEGE MEN AND ENGLISH

Owing partly to individual carelessness and partly to a fault in the curriculum, students pass, year after year, through the Canadian universities, and obtain their degrees, undeterred by the fact that their knowledge of the English language is in many cases of the most rudimentary nature. That this is the case becomes apparent to anyone who listens to the conversation or reads the letters of a representative number of students.

The statement is particularly, not solely, applicable to students in Applied Science. Even the Arts men, who, for the first two years at least, are largely taken up with literary studies, are, in a great many cases, not merely frequently, but habitually, guilty of solisms.

This, as we have already said, is partly due to some fault in the curriculum. For it is our humble opinion that a man should not be granted a degree, until he has demonstrated his ability to write clear and grammatical English. But surely, if the student will think the matter over, he will see that it is to his own advantage not to leave college without attaining to this ability. It is a fact, regrettable perhaps, that a man is frequently judged by his conversation or his letters. It must be plain, even to the most prejudiced, that the quality of his English will have much to do with the verdict.

A REGIMENTAL BAND

Why shouldn't we have a band attached to the McGill Regiment?

There's absolutely no reason at all why we shouldn't. Why, think what a success the band has been in the past! Think of all the enthusiasm it has stirred up at the football games! Wouldn't it be much more imposing and much more inspiring if we marched along headed by our own band? We certainly think so.

So, now's your chance, you musicians! Get out and show what you can do to help the Regiment. You will have everybody behind you, and you can accomplish more good with a few bars of martial music than ten men making enlistment speeches. Let's hear from you soon, and if we can possibly help you, we will certainly do it.

THE Y.M.C.A. RECEPTION A BIG SUCCESS

(Continued from page 1.)

that of a man like Greenshields. The latter volunteered in France with the foreign legion to reach the front all the faster. Bourassa, an ardent advocate of all things French, returned at once to Canada to sound a discordant note where except for his utterances there had been nothing but harmony. Along the same lines was the professor's terse criticism of those who rejoiced above all at the fact that distance from the scene of hostilities meant safety and profit for those on this side of the Atlantic. "The port of safety is never the port of honour," said Professor Macnaughton. One of the finest things about the war, the speaker went on to say, was the manner in which France and England were forever brought together. "France," he said, "has henceforward as much interest in England as Australia in Canada." As an illustration, the professor told of an English girl, residing in Paris,

who chanced to pass a group of soldiers on duty in a village outside the city. Two of them saluted, and in their best English, said, "God save your King, miss." Touched at the expression of friendship for her country, the English girl stopped, sat down beside the men and helped them peel their potatoes. An action as noble, declared Professor Macnaughton, as any that had yet been done in the war. "Remember, there will be no peace until we destroy that nest of rattlesnakes," concluded the professor, "until we go into the wasp's nest and smoke them out. Only then will we have a resurrected Germany in her right mind, able to stand in the country of nations, no longer desirous of forcing her civilization on the whole world." The guests of the evening were welcomed by Mr. G. H. Fletcher, president of the McGill Y.M.C.A., and addresses on behalf of various clubs and societies were delivered by their representatives. "Now that we have decided to keep up football," said George Laing, "we must not go in for it in a half-hearted way. I know that at the present moment football will to many men appear

SONGS TO BE SUNG AT BIG MATCH SATURDAY

The songs appearing below have been selected as those which will be used at the big match with Varsity on Saturday afternoon. It will be the aim of the Rooters' Club to learn a few songs perfectly, rather than a large number in a ship-shod manner. New parodies are earnestly solicited, and additions will be made from time to time to the following list:

HAIL! ALMA MATER.

Hail! Alma Mater, we sing to thy praise;
Great our affection, tho' feeble our lays.
Nestling so peaceful and calm 'neath the hill;
Fondly we love thee, our dear old McGill.

Hail! Alma Mater, we sing to thy praise;
Loud in thy honor, our voices we raise.
Full to thy fortune our glasses we fill,
Life and prosperity, dear old McGill.

Hail! Alma Mater, thy praises we sing,
Far down the centuries still may they ring;
Long thro' the ages remain, if God will—
Queen of the colleges, dear old McGill.

TO THE TUNE OF TAMMANY.

James McGill! James McGill!
Peacefully he slumbers there,
Blissful though we're on a "tear,"
James McGill! James McGill!
He's our father, well yes, rather,
James McGill, McGill!
William C., William C.
He doth make our College run,
Giving William P. the "Mon."
William C., William C.
Aint it funny, so much money,
William C., McGill!
Old McGill, Old McGill,
Varsity can go to —
R. M. C. and Queen's as well
Old McGill, Old McGill,
Race them, chase them. Race them,
chase them,
Old McGill

For they'll do the same thing over,
Over again, over again,
They put the same old ball over,
Over and over again.
They will tear up that Varsity one,
boys,
And buck them all over and then
The whistle will blow and you'll see
the ball go
Over and over again.

(TUNE MARCHING THROUGH GEORGIA.)

Now our team is on the field, ev'ry
nerve and muscle steeled.
And determined that they'll win or
die to-day,
See those fellows sure and strong,
ready all the line along,
Queen's will simply have to break
and fade away.

Chorus:

Cheer them, cheer for Old McGill, boys,
Raise your voices in a song,
We must beat them on the play, for
we're out to win to-day,
And the team in Red and White will
move along.
When the ball is put in play just you
watch us break away,
And the team at once go marching
down the field,
Queen's will fight in vain, tho' they
try with might and main,
And their goal to us they'll surely have
to yield.

Chorus:

Cheer, then, cheer, etc.

Presbyterians

Elect Officers

The first meeting of the Presbyterian College Undergraduate Society was held last night for the election of officers. The following gentlemen will act for the coming session:

President—T. J. McVittie, M.A.
Vice-President—K. McLean, B.A.
Secretary-Treasurer—F. G. Fowler, B.A.

Repr. from Arts.—J. A. Jess, 15.
Pres. Athletic Association—L. MacNaughton.

The Rev. Dr. Dickie, on behalf of the Board of Governors of the college, explained the changes that had taken place in the management of the college, all aiming to produce a better and more cordial spirit amongst the students. Most of his suggestions were gladly welcomed, and the new president thanked him in the name of the student body for his remarks.

Things Theatrical

PEG O MY HEART RE-VISITS PRINCESS.

"Peg" is with us again, and as welcome as a bit of true shamrock to an exiled son of Erin.

A play based on natural human emotions, possessing a clever character delineation, and a dash of incident brightened with alternate flashes of laughter and tears, is not likely to weary us soon—and "Peg" is all of that and more.

It has not been our good fortune locally to see Miss Lauratta Taylor in the title role of this little play, but an exceedingly charming and capable substitute has been found in the person of Miss Marion Dentler.

Her role, of course, is the play itself, and Miss Dentler realizes the possibilities of her part. Her accent is rich, her manner vivacious and her laugh particularly infectious. Her presentation is that of the true Peg, that quaint mixture of simplicity and worldly wisdom which has carried off the palm of American approval for the past two seasons, and bids fair to finish well in the front in this season's race for popular approval.

a very small matter, but if it is to be played at all, we must see that the game is played in a manner that does not disgrace McGill.

The president of the football club attracted attention to the Rooters' Club, as one of the essentials to a successful season, and asked all those who had the time at their disposal to do their best to help the team win on Saturday by strong and timely cheering from the stands.

Mr. A. S. Lamb spoke on behalf of gymnastic abilities, and the necessity of being in the best of condition. Mr. Eric Cushing spoke on behalf of the Track Club; Mr. H. C. Beatty urged the value of the newspaper training offered to students wishing to help with the McGill Daily. Mr. A. McGarry, Arts '13, rendered a song that was heartily encored, and vaudeville melodies were dispensed by the talented pair of artists, Messrs. Frank Common and Osborne. Refreshments were then served and the national anthem brought a first-rate social evening to a close. The reception for Freshmen in Medicine and Science will be held to-night at the Hall.

TUNE—"EV'RYBODY TWO-STEP." CHORUS.

Ev'rybody turn out and yell for Old McGill,
Ev'rybody turn out and join the rooting drill,
Give your yell with all your might,
Ev'rybody turn out and turn out right,
If you want to turn out, don't think you shouldn't dare,
Ev'rybody does it—Nobody ought to care,
Ev'rybody wiggle, wiggle—then you start a row. Ev'rybody turn out now.

TUNE, "WHAT'S THE MATTER WITH FATHER."

What's the matter with George Laing?
He's all right.
What's the matter with Jeffrey? He's all right.
Now all you fellows from Old McGill,
Cheer that team till their hearts do thrill,
What's the matter with our team? They're all right.

McGILL YELL.

We're out for gore,
We're out for gore,
We're out for gore,
Keep her low,
Keep her low,
Keep her low,
Let her go,
McGill!
What's the matter with old McGill?
She's all right. Oh, yes, you bet.
McGill, McGill, McGill!
Rah! Rah! Rah!
Rah! Rah! Rah!
Rah! Rah! Rah!
McGill.

We've got you, we've got you,
We've got you Varsity,
We shout and fight for the Red and White and the honour of M-C-G.
Erepatady, Erepatady, Erepatady,
Ratapady Rie,
We've got you, we've got you,
We've got you Varsity,
McGill.

TUNE: IT'S A LONG, LONG WAY TO TIPPERARY.

It's a big day for Old McGill, boys,
It's a big day to-day,
Because we're going to beat Toronto,
That's what all the fellows say,
We'll cheer for Old McGill, boys
'Cause our hearts are all so gay,
Yes, it's hard, hard luck for old Toronto,
But we'll win to-day.

GET OUT AND UNDER.

Oh, Queen's will go under
You bet they'll go under
For you can't beat Old McGill

And Varsity goes to cuddle the ball.
They'll never do it;
Only pursue it,
For when we get going,
You cannot stop us at all.
Just watch when Varsity turns out to play us.
They will soon find out they—can't delay us for
They all will go under
And it is no wonder
For you cannot beat Old McGill.

TO THE TUNE OF TIPPERARY.

So it's good-bye to old Toronto,
And it's farewell to Queen's,
We are sorry we've not to trim you,
But the championship it means,
Shag only turns out winners,
Since he is a bear,
And the whole team is made up of lions,
And we are right there.

VIII.

TO THE TUNE OF "DO AS MUCH FOR YOU."

Rah—we're going to win to-day, boys.
Rah—we couldn't lose to-day, boys.
Rah—we've got the team to do it.
Watch them take the ball down the field.
Buck it over fellows,
Rah—McGill is always leading,
Rah—we're on our way,
We are always winning,
For we're always winning,
Rah, Rah, we're going to win to-day.

IX.

TO THE TUNE OF "IN OLD NEW YORK."

At Old McGill, at Old McGill
The Campus crop is fine (Sure!)
They're always there,
For scarlet and white are in line
We've seen the teams that came from Queen's,
Likewise from Varsity,
They're pretty fair,
But can't compare with McGill (etc.)

X.

TUNE—"TAKE ME TO THAT SWANEE SHOHIE!"

Oh, won't you take me to that football game?
So I can see Old McGill play once more.
Paisley's there—he's a bear,
There's Jeffrey and Monty,
There's Toosy and Quilty,
And many more, no time have I to name,
The boys just arrived, now watch them in the game.
Down on the Campus there,
That's where the battles fare,
Take me to that football game.

"OUR TRAVELLER"

Price \$12.50

This is a high class Gentleman's Suit, and is made in all the new shades, with an eleven inch peaked rolling lapel, and a 2½ inch notch. It rolls to the second button.

The coat has five pockets and the length is 5 inches less than half the wearer's height. The vest is made to button fairly high. The trousers are cut on the English order.

This is a very smart suit for a young man. In a number of lines in this particular made suit we have two pair of trousers.

McGill Students!

The MacMillan Company, of Toronto, have appointed us as Montreal representatives for the medical books. The same may be obtained in our Book Department at the following prices:—

PEP" IS TO GUIDE MCGILL SENIOR TEAM

Was Re-Elected to Captaincy Last Night

WORK AND STUDY WON'T INTERFERE

Will Have Time for Both Faculty and Football Duties

Pep Paisley was again chosen captain of the McGill football team yesterday afternoon when the members of the senior squad met for that purpose. The conclusion of the workout, which finally settles the trouble over captaincy caused by the threatened retirement of the auburn-haired half-back at the beginning of the season, Paisley returned to college this morning. He thought that his course would be so difficult as to prevent him from taking part in athletics of any description, and for the past two weeks he has been without a captain. Efforts were made to get him back in the team, but all to no purpose until he was finally abandoned and his resignation was accepted. In the meanwhile, however, Pep found that he would be able to play after all and turned out to practise a couple of days ago. As he had resigned, it was necessary to go through the formality of choosing a new captain. Paisley, being elected, turning out strengthens up the division considerably, and he consequently need not have to do much worrying over that department of the team.

NEW EQUITATION CLASS FORMED

Be in Connection With Battalion to Qualify Men in This Branch

There has been organized from amongst members of the C. O. T. C. of the regiment, a class in Equitation for the purpose of qualifying in military drills required by a military officer as well as securing a horse. The class has been organized on the following basis: At least eight members are required for a class.

For the consideration of \$1.50 per hour of a horse, Capt. T. C. Reeb, C. Squadron, Sixth Hussars, proprietor of the Montreal Riding Academy, Hutchison street, has undertaken to qualify the class in Equitation. The course is not to last more than twenty lessons. Ten per cent. of full fees are paid in advance. For this sum Capt. Reeb is to furnish saddled horses and riding instruction, approved of by the Department. In addition, Capt. Reeb is to secure permission from the Department to regularly qualify the members in Equitation, and to see that the course is properly examined. The course will take place twice a week, commencing this week. Instruction squads to number from four to seven.

Lesson fees to be paid, if not done bulk, before each lesson. Two squads have been already formed, who will drill on Wednesdays and Fridays from eight to nine and nine to ten in the evening, at Capt. Reeb's riding Academy on Hutchison street. There is still room for six more members to form a new squad, and to drill regularly on Mondays and Wednesdays. Any men desirous of joining this class should communicate with W. G. S. Shipman, at C. O. T. C. armory, or in the time Main 1255. The following have already joined the class: Dr. J. C. Reid, Prof. P. Nobbs, H. Sims, G. Pope, Sgt. A. P. Greig, R. C. Dale, J. Harold, W. H. Gordon, R. E. Atlee, G. P. Vanier, G. W. S. Shipman, Art. Mathewson, A. M. C.

AMERICA TO BECOME EDUCATIONAL CENTRE

United States Commissioner of Education Shows Possibilities of United States

Given from the educational centres of Europe by the war, thousands of European students will seek opportunities for higher education in the United States and Canada, according to Dr. J. C. Claxton, United States Commissioner of Education.

ROOTERS' CLUB

BEST HOWL-FEST EVER LAST NIGHT

Every member of the team for the Rooters' Club? They certainly do! They will all tell you that there isn't a team working harder as a good, spirited cheer. It just keeps every one full of all sorts of "pep." There are only three days left for the howl-fest last night in the bleachers. All the best Rooters' Club members led the good old yell, and went into the bleachers Saturday afternoon.

SENIOR TEAMS TURN OUT IN FORCE IN PREPARATION FOR BIG BATTLE

Shaughnessy Sees Hard Work For Squad Before They Meet the Blue and White on Saturday

DeMUTH TO BE IN UNIFORM TO-DAY

Difficult to Choose Half Line From Star Material on Hand

A hard workout against the second squad was given the Seniors yesterday afternoon. Shaughnessy had his first team lined up against "Sine" McEwen's "hopes" for about an hour and substituted his men so often that every member of the squad was given ample opportunity to show what he could do. The big coach was not greatly satisfied with the manner in which some of the plays were run off. A couple more very strenuous sessions on the practice field are before the McGill men, before they will be in proper shape to withstand the attacks of the machine that Varsity is certain to send down. Over-confidence cost McGill, a sad defeat last season and at present there seems to be a feeling of this sort prevailing among some of the men on the squad. McGill made none too good a showing in last Saturday's encounter with M.A.A.A. and Varsity will be a very much different proposition.

With Seath, Woollatt, Paisley, Jeffrey, Laing and Ross, Laing in uniform, Shaughnessy has a lack of material out of which to form a back division. Ross Laing was given a try out on the half line and astonished many of the fans by his showing in this position. He is very fast and can punt fairly well. Up to the present time McGill has not acquired a punter of any great ability and "Shag" needs somebody to fill this important place at once. George Laing did fairly well against M.A.A.A. last Saturday, but as the Blue and White are reputed to have a man who can outpunt "Red" MacKenzie McGill will need a man who can be thoroughly relied upon to hold his own with the best in the league. If "Shag" is unable to unearth this much needed asset before the end of the week, he will have to so perfect the play of his team as to overcome any advantage Varsity may be able to derive from having a better punter.

Several of the new men are still slightly unfamiliar with the signals but in the time that is left before the big game, a thorough knowledge of the most intricate plays will be drilled into these men.

KEN. MATHEWSON ELECTED YEAR PRESIDENT OF '17

At Meeting Held Yesterday—Don Macfarland Second Vice-Pres. and Leroyd Sec.-Treas.

It was a very small and select number of sophomores who met yesterday afternoon at 4.30 in Strathcona Hall for the purpose of electing officers for the coming year.

The meeting opened with Keith Hutchison, last year's president, in the chair. The first business to be done was the election of a president. Mr. Ken. Mathewson, Arts '17, was chosen. Since he was absent from the meeting Mr. Hutchison remained in the chair until a vice-president had been elected. It is customary for a member of the R. V. C. to be chosen first vice-president, while a second vice-president is chosen from among the men. This honour fell to Don Macfarland, of Science '17. Immediately the result was announced Mr. Hutchison retired and left the chair to Mr. Macfarland. The election of a secretary-treasurer followed. Mr. Leroyd, who last year served as president of Med. '18, was elected to the office by acclamation.

A hearty vote of thanks to Keith Hutchison for the efficient manner in which he discharged the duties of president last year was moved by Mr. Hutchison, and seconded by Mr. Gordon Rochester, Science '17. The meeting closed with the class yell, repeated several times, with Keith Hutchison as cheer leader.

coming to us and many more will come as the result, direct or indirect, of present events," says Commissioner Claxton.

It is also pointed out that another result will be the holding of hundreds of American students at American universities.

"We have now a supreme opportunity to demonstrate our capacity for intellectual leadership," continues Dr. Claxton. "Whether the war continues three months or three years, our opportunities and obligations take the lead in education and civilization will be the same."

bleachers on the east side of the field will be reserved for the melody-makers, so it is an advantage in many ways than one to belong to the aggregation of shouters. Charlie Bibbs says he will have about eighteen members of the band out, and with this to lead with the songs, and to provide entertainment during the rest periods of the vocal ensembles, the wildest time the old Campus has ever seen will be pulled off the end of the week. So turn out, now, all you Rooters! Get your brains to work and compare some songs, and be sure and be at the meeting to-night at seven-thirty in the hall.

Lemay

Will rip up Varsity line Saturday

Probably, the feature of yesterday's practice was the splendid running of the halves. Jeffrey, Laing, Seath, Woollatt and Ross Laing all managing to go round the end for large gains. Seath possesses a very effective straight arm which is wonderfully useful in disposing of would-be tacklers. For speed, a back-division chosen from the material Shaughnessy now possesses will be very difficult to equal.

On the line Quilty and Lemay scintillated, the new man proving once again that he is a very strong line-plunger. Lemay seems to have completely recovered from his injury of last week and managed to force his way through the seconds for useful gains on several occasions. Monty still needs to practice his inside kick before it will be safe for him to attempt to use this play in a match, as an inside kick which does not come off is liable to result seriously for the team using it.

DeMuth will be out to-day, as yesterday he told Coach Shaughnessy that at three o'clock, he would be ready for work. His return to the squad will be a welcome one, especially so since the trouble about their courses that Trapp, Brown and a few other men are experiencing. If these two useful men are lost to the squad a big gap will have to be filled and not much time is now left before the opening game. Bill Hughes was back in uniform yesterday, displaying plenty of "pep."

Another hard workout will be held this afternoon and a freshman contest the second will be again part of the afternoon's drill. The fight for positions on the half-line ought to provide plenty of food for the fans during the remainder of the week. When it is considered that outside of three or four players practically no man is absolutely sure of a place on the team; one can imagine that there is plenty of speculation being indulged in these days as to who will be on the fourteen that faces the Blue and White Saturday.

No official have been settled upon as yet. Varsity have suggested three Toronto men to handle the game but this is hardly satisfactory to McGill.

R.V.C. Athletic Society Met Yesterday Aft.

Assistant Managers Were Selected

The first meeting of the R.V.C. Athletic Association was held in the common room on Tuesday. The new president, Miss Mary Macoun, occupied the chair.

The first business was the selection of assistant managers in the different sports from the third year.

The following officers were elected: Assistant tennis manager—Miss G. McDonald.

Assistant hockey manager—Miss M. Currie.

Assistant basketball manager—Miss M. Cameron.

Assistant fancy skating manager—A. McCaw.

Assistant sports manager—A. Douglas.

Representative from 1st year—Miss L. Fowler.

After some discussion it was decided to make application to the McGill tennis club for the occasional use of the McGill courts.

A resolution was passed to invite McDonald College to play two games with the R.V.C. It is hoped that the R.V.C. girls will turn out and practise regularly, so that there may be a triumphant score.

He is ready to break some more records

Interesting Account of The Annual Rush at Columbia

Freshmen Defeated the Sophs in One of the Most Successful Rushes in Years

The Freshmen who enter McGill at the present day miss much of the strenuous initiation which used to be the lot of former Freshmen. Rushes are a thing of the past, and on the whole little regret is felt that such is the case.

It may interest some readers to have an account of the flag rush held at Columbia a few days ago. On that occasion the Freshmen put up a strenuous fight, and for the second time in nine years succeeded in defeating the Sophomores, who far outnumbered them. The following account is taken from the Columbia Spectator:

More than making up in spirit and courage what they lacked in numbers, the Freshmen at Columbia recently humbled 1917 by winning the third and greatest of their rushes, and by doing so winning the series. In the very first period, the 1918 men, after two unsuccessful attempts succeeded in capturing the coveted flag.

The Sophomores were the first on the field, marching on, each man with a hand tied around his head, about half past four, and soon afterwards lined up around the flag. Meanwhile the Freshmen had come on the field, marching five and six abreast, but had stopped outside the ropes. There the picked small men who were to try for the flag had their wrists and ankles well greased and were assigned their positions. Two small squads of about ten men each were sent to harry the Sophs on the side towards Farnald, while the main body, six abreast, advanced from the direction of Hartlay. In the first four ranks were big men, and on the shoulders of those in the fourth row were perched, first four chosen men with a large blanket to entangle the arms of the Sophs, and then the rest of the small greased Freshmen.

The handkerchief dropped, and the phalanx of Freshmen moved forward gathering speed as it went along until it crashed into the waiting Sophs. In an instant a dozen Freshmen were struggling to climb over their enemies, but the blanket was quickly torn down and blinded by flour thrown by the Sophs on the outside row, they were pulled down without difficulty.

THE TRACK CLUB

FRESHMEN TO HAVE STRONG TEAM

A meeting of the Track Club Executive was held yesterday at which several important matters were discussed. Mention was made of the fact that the M.A.A.A. grounds have been secured for McGill track men for all Monday, Wednesday and Friday afternoons from now on. A number of men will undoubtedly take advantage of this arrangement, especially as Coach Tom Graydon will be at the M.A.A.A. on those days. However, any who are unable to get out there will still be able to train every day on the McGill campus.

Hillier, the crack sprinter, was elected secretary of the Club to take the place of Pickard-Cambridge who has gone to war, while Eric Cushing was chosen captain of this year's Track Team, as Spurge McKenzie, who was to fill this position is taking a year out of college.

Prospects of a close race on Thanksgiving Day between the Sophs and the Freshmen are becoming more certain every day. The general belief has been that on last year's showing the 2nd year men would have a walkover. But three of the last year's freshmen team, Hillier, Smelzer and Fraser, will again run for the first year, as they are all in Med. '18. These three men will swing a number of points back to the freshmen, as Hillier is almost sure to take the 100 yds., and likely the 220 yds. as well, while Smelzer in the high jump will take a lot of beating.

With Jack Parthing in the broad jump and the hurdles, and with Bill Auliff for the mile, three mile, and pole-vault the freshmen have the nucleus for an unusually strong team.

TENNIS ENTRY WAS CLOSED YESTERDAY

Large List of Competitors Especially in Freshman Event As there are 11 Entries

GAMES ARE TO START TO-DAY

Men Trying for Intercollegiate Team Places Are Working Hard

The entries for the club singles tournament and the Freshman singles closed last night with a good entry list. The Freshman event is exceptionally large, there being 11 entries. The draws of these two events are given below:

CLUB SINGLES.
Newsam vs. Harshaw.
Cleveland vs. Gibbs.
Elkington vs. Farthing.
Ward vs. Merritt.
Taylor vs. Quinn.
Lionais vs. Dempster.
MacNaughton vs. Laviolette.
Greene vs. Hilbard.

FRESHMAN SINGLES.
Preliminary Round.
Walsh vs. Branch.
Wongham vs. Merritt.
Hardman vs. Creaghan.
Ross vs. Rutherford.
Sutherland vs. winner Hardman-Creaghan.

Farthing vs. Winter.
The following games are scheduled for play to-day:

FRESHMAN SINGLES.
Walsh vs. Branch.
Wongham vs. Merritt.
Hardman vs. Creaghan.
Club Singles.

Newsam vs. Harshaw; Dempster vs. Lionais; Taylor vs. Quinn.
As it is desired to get a good start on these events before the end of the week, games must be played as drawn. The men trying for Inter-Collegiate team places are putting in steady practice, and are fast rounding into form. The prospects of a good team are the best. It is hoped that during the next week the team will be definitely decided upon, and combination practice commenced.

IMPORTANT PART

Some time since two citizens met on the main street of a rural town, and after crops and politics had been exhausted they began the usual questions about each other's family.
"What's become of yer son Jake?" queried one of the natives. "Haint seen him for a couple o' months."
"Gone on the stage," replied the second. "He's what they call a light come diano."
"Light comediano, eh?" returned the first, with a puzzled expression. "What in the thunderation is that?"
"He stands behind a black curtain on the stage," explained the second, "and when a feller what they call Pawnee Pete shoots at a candle, Jake blows out the light."

STANFORD TO HAVE NEW GYMNASIUMS

Work Will Be Started This Week on Two \$100,000 Structures

Two new gymnasiums to cost approximately \$200,000 will be started at Stanford this week. The new structures will be of faced brick, harmonizing with the general color scheme and architecture of the university buildings. The gymnasium for the men is to be placed west of the present cinder path and rugby turf. Architecturally it will balance Encina Hall, which is west of the structure. The gymnasium is to be designed as two buildings joined by a court. The higher portion of the structure is to face Encina Hall, the men's dormitory. In this part will be the drill hall and exercising rooms. The maple floor space will be 120 by 70 feet.

The special features of the men's gymnasium are the lounging room for the visiting athletic teams which compete with the Stanford athletes, the boxing and wrestling rooms the laundry and office rooms. A filtration plant similar to the one used by the United States government is to be installed to chemically treat the Searsville water which is to be used in the showers.

WOMEN'S GYM UNEXPECTED.
The appropriation for a women's gymnasium comes as a distinct surprise to the Stanford students. The structure is to be placed west of the geology and mining department, facing the present quadrangle. The building is to be surrounded by a new set of athletic fields for the female students. This structure will cost approximately \$100,000.

RECRUITS COMING IN DAY BY DAY

Many Vacancies Yet For Those Anxious to Join

Forty-seven men put their names down yesterday on the recruiting lists of the regiment. If the number of new recruits keeps on going at this rate it will not be long before the regiment is up to full strength. The majority of those joining now are undergraduates, but there are still a large number who intend enlisting, but have not done so yet. These men should come forward at once, as the sooner they get their recruits drills over the better it will be for the battalion, and for themselves. The following men joined yesterday:

Sutherland, V. R.
Rutherford, J. B.
Sutherland, W. S.
Scott, H. H.
Cropper, W. C. M.
Megan, G. W.
Wilson, W. de S.
Harvey, F. W.

MORE DONATIONS FROM GRADUATES

To Aid Canadian Patriotic Fund In the Support of the Soldiers' Families

In answer to the circular letter sent out some time ago from the Graduates' Society of McGill, the following additional replies have been received, along with subscriptions. The idea is to collect one dollar from every McGill graduate and then to turn the money over to the Patriotic Fund. The answers come from all over the continent, and show the desire of doing more to help put down the German godless abuse of national honor, life and peace.

E. J. Melver, Newark, N. J.
"Why not make it \$1 a month until the war ends?"

H. A. Jones, Salisbury, N. B.
"Anything further I am prepared cheerfully to do at any time."

James A. Thompson, Walpole, Mass.
"I hope that it may help to put down German godless abuse of national honor, life and peace."

J. D. Purdy, Scranton, Pa.
"Would be glad to contribute further if required. However, would like to know for what purpose the fund is to be used."

John W. Scane, Montreal.
"The idea is splendid one, and I hope your committee will receive the hearty support of all McGill graduates."

William Cherry, Toledo, Ohio.
"I am a British subject; call again."

SHORT DESCRIPTION OF THE SUBMARINE

Modern Methods of Operation As Seen in this New Troublesome Terror

So much has been written concerning what the submarine, by a flight of imagination, may achieve, writes the naval correspondent of the London Morning Post that most people are somewhat uncertain as to what the submarine actually is and does. To begin with, she is shaped like a cigar, and she carries a tower on her deck. Inside the tubular steel hull, valves admit tubes and pipes line the walls; aft, in a space so low that the engineers can hardly stand upright, are the internal combustion engines and the electric motors which drive the vessel when she is under water. Below the floor, or deck, of the inside of the hull are petrol and stores. Forward are the torpedo tubes. Amidships there projects downwards from the ceiling a thick brass column ending in a brass cross-piece. This is the base of the periscope. When the boat is submerged and the officer desires to see what is going on above, he sets a hand on each arm of the cross-piece, which is level with his face, and rotates the column, while he looks into the mirror in the top of the conning tower. Just above the steel hull itself, officers and men are dressed in sea-boots, sweaters and rough clothing.

WHAT SHE DOES.
The submarine, running awash, forces sullenly onwards with a heavy grinding noise, the water lifting and dripping from the gills which project on either side of her snout. Below, the

MCGILL MEN GOING TO THE FRONT WITH CANADA'S FIRST CONTINGENT

Several of the McGill Undergraduates who Volunteered Soon After War Was Declared Are Now on their Way to the Front—Some Obtained Commissions but Others Went as Privates

MANY OF THEM PROMINENT IN COLLEGE AFFAIRS

Highest Praise of Everyone at College Due to these Men who Placed the Call of their Country Before College Courses

J. K. M. GREEN.

Green, familiarly known as "Deke," comes from Mexico City, although he is a Canadian by birth. His father is a very prominent engineer in Mexico. "Deke" graduated from R. M. C. in the spring of 1913, and came to McGill in October, of that year.

In the football season of 1913 he turned out with the first squad and looked to be promising material. Unfortunately, he hurt his knee and was laid up for a time. The idea is to collect one dollar from every McGill graduate and then to turn the money over to the Patriotic Fund. The answers come from all over the continent, and show the desire of doing more to help put down the German godless abuse of national honor, life and peace.

When the first contingent was mobilized at Valcartier, Green went down with a detachment of the 21st Field Battery. At Valcartier, the 21st was joined with the 3rd, to form the 8th Field Battery, and as officers were very plentiful Green was not given a commission in the 8th. After waiting for about two weeks "Deke" was finally given a commission in one of the regiments in the 4th Division, and sailed for the front with the first contingent.

W. S. LIGHTHALL.

"Bill" Lighthall came to McGill in the fall of 1912, and is a well-known and popular fellow among the junior years. He is a powerful swimmer and played on the intermediate polo team

for two years. He was elected representative for Arts on the Swimming Club Committee. Also last year he was secretary of the "12" as well as Secretary of the Arts Undergraduate Society. Last winter he had the misfortune to take typhoid fever and was compelled to leave college.

On way back to "Bill" enlisted in the Corps of Guides. Soon after he was promoted corporal and had the pleasant job of rounding up deserters. The Guides went down to Valcartier, but were not taken in the first contingent. Accordingly, "Bill" joined the Royal Canadian Dragoons and will be soon at the front. He is the son of W. D. Lighthall, K.C., a prominent Montreal lawyer.

J. S. BROWN.

Jack Brown is a member of Medicine '17. Before coming to McGill he took his B.A. degree at Bishop's College, Lennoxville, and then taught in the Quebec High School for a few years. Jack was the star of the Medicine '17 class football team, which won the Wood Cup last year. He also headed his class in many subjects.

Jack was a member of the seventh Field Ambulance, and on the declaration of war volunteered for active service. He passed the medical examination and was attached as an orderly. From the last heard of him at Valcartier he was in great condition and enjoying it immensely.

C. O. SCOTT.

Scott received his preliminary education at Mount Allison College and Ottawa, afterwards taking two years at McGill College, Vancouver. He

came down to Montreal last year and entered Arts 15. He did valuable work on the Daily staff and was night editor for the latter part of the year. He was interested in the Wesleyan Club.

Scott is in the ammunition column of the Second Artillery Brigade, Canadian Field Artillery. He left Montreal on the 14th of September and is now on the ocean.

J. C. M. MORROW.

"Jumbo" Morrow hails from Halifax, N. S. He went to R. C. S., where he played some football and hockey. At R. M. C. Morrow was a class mate of Green's, and graduated with him in 1913. At R. M. C. Morrow played hockey, but did not follow it up very seriously at McGill, contenting himself with playing in some of the class games. Morrow applied for a commission at the beginning of the war, but had to wait for some time. While waiting for this commission Morrow went on with some work at college, and was in charge of one of the summer school survey camps. A commission was offered to him in a Halifax regiment, which he accepted, but as there was some trouble about obtaining this, Morrow was left once more without a position. After another period of waiting Morrow received a message telling him to find some officers for a new regiment, which was being formed down in St. John's, N. B., but while doing this he got word from Valcartier informing him that a commission was open to him in one of the infantry regiments going with the first contingent. Morrow accepted this, and when last heard from was on board one of the transport ships.

ARTS SOPHOMORES ELECTED OFFICERS YESTERDAY NOON

Yesterday morning at 12.45 Arts '17 held their first meeting for the purpose of electing officers for the coming year. Dunton, last year's treasurer, first read a financial report, which showed a credit balance of a few dollars in the class fund. Then the elections took place and resulted in the following members of the class being elected:

President—W. E. Dunton.
Vice-President—K. Mathewson.
Secretary-Treasurer—A. W. Heron.
After three cheers and a tiger were given for Heron, the ex-president, the meeting was dismissed.

quarter of the circumference of a circle having a radius of 4 feet. The other men, in succession, will follow in his footsteps without increasing or diminishing their distances from each other or altering the time, but shortening the pace a little with the inner foot.

3. Rear Files—Cover.
If the squad is halted or ordered to Mark Time when only a part of the men have wheeled into the new direction, the men who have not yet wheeled will cover off on those who have, moving to their places by the shortest route.

4. Forming squad on the move (Plate III, Fig. 3).

On the Left, Form—Squad.
The leading man will mark time, the remainder will make a partial turn in the named direction and form upon him, marking time as they come into the line.

Forward.
The squad will move on in line in the direction in which it was originally marching in file.

Note.—After forming squad on the right, the left will normally be ordered to direct.

5. Forming squad at the halt.
On the Halt, or the Left, Form—Squad.

The leading man will halt, the remainder will make a partial turn in the named direction and form upon him, halting and dressing as they come into the line.

EXTRACT FROM 1914 INFANTRY TRAINING INSTRUCTION NOW IN FORCE IN THE ARMY

Taken From the Latest Manual of Infantry Training for the Benefit of Anyone Connected With the Military Movement at McGill—Sections 21 to 35

21. POSITION IN MARCHING.
1. In marching, the soldier will maintain the position of the head and body as directed in Sec. 13. He must be well balanced on his feet. In slow time his arms should be kept in line with his sides. In quick time the arms should swing naturally from the shoulder, the right arm swinging forward with the left leg, and the left arm with the right leg. The movement of the arms should be such as to give the haunch and be free and natural.

2. The legs should be swung forward freely and naturally from the hip joints, each leg as it swings forward being bent sufficiently at the knee to enable the foot to clear the ground. The foot should be carried straight to the front, and, without being drawn back, placed firmly upon the ground with the knee straight, but so as not to jerk the body.

3. Although several recruits may be drilled together in a squad with intervals, they must act independently, precisely as if they were being instructed singly. They will thus learn to march in a straight line, and to take a correct pace, both as regards length and time, without reference to the other men of the squad.

4. Before the squad is put in motion, the instructor will take care that each man is square to the front and in correct line with the remainder. The recruit will be taught to take a point straight to his front, by fixing his eyes upon some distant object, and then observing some nearer points in the same straight line, such as a stone, a tuft of grass, or the head of the man. The same procedure will be followed by the man on the named flank or by the named number, when marching in other formations (see Sec. 31).

22. MARCHING IN QUICK TIME.
1. The quick march.

Quick—March.
The squad will step off together with the left foot, in quick time, observing the rules in Sec. 21.

Note.—For the first week of recruit training it is recommended that all squad drill should be with intervals and in slow time only. The executive word of command will be Slow—March. The men will step off and march as described for Quick—March, but in slow time, and keeping the arms and hands steady at the sides, pointing the toes downward and placing them on the ground before the heel, each leg being straightened smartly as it comes to the front before the foot is placed on the ground.

The halt.
Squad—Halt.
The moving foot will complete its pace, and the other will be brought smartly up in line with it, without stamping.

3. Stepping out.
Step—Out.

The moving foot will complete its pace, and the soldier will lengthen the pace by 3 inches, leaning forward a little, but without altering the time. Note.—This step is used when a slight increase of speed, without an alteration of time, is required; on the command Quick—March the usual pace will be resumed.

4. Stepping short.
Step—Short.

hull is filled with the crashing of the furious engines cramped into the narrow tube of steel. The engineers squat placidly among the racing rods and pistons, in the thick atmosphere tainted with fumes. Should the sea-water enter the hull and mix with petrol gas, the fatal chlorine gas is formed, and the crew are suffocated.

The method of the submarine is to cruise at economical speed, ten knots or less, on the surface, until she sights a hostile vessel. As she is so small she can see another vessel before the other vessel can see her. Then she sinks. The captain and the crew go below; the hatches are closed, and the captain, swinging his weight upon the cross-piece from the periscope, his eye upon the mirror, gives his orders. The crew are lying along the sides, ready to turn valves on or off. The internal combustion engines are stopped and the propeller shaft is connected up to the electric motors. There is a sudden silence.

The foot advancing will complete its pace, after which the pace will be shortened by 9 inches until the command Quick—March is given, when the quick step will be resumed.

5. Marking time.
Mark—Time.

The foot then advancing will complete its pace, after which the time will be shortened, without increasing or diminishing the time, by raising each foot alternately about 6 inches, keeping the feet almost parallel with the ground, the knees raised to the front, the arms steady at the sides, and the body steady.

6. Stepping back from the halt.
Paces Step Back—March.

Step back the named number of paces of 30 inches straight to the rear, commencing with the left foot, observing the rules in Sec. 21.

Note.—Stepping back should not exceed four paces.

23. CHANGING STEP.
1. When on the march.

Change—Step.
The advancing foot will complete its pace, and the ball of the foot will be brought up to the heel of the advanced one, which will make another step forward, so that the time will not be lost, two successive steps being taken with the same foot.

When marking time.
Change—Step.

Make two successive beats with the same foot.

24. MARCHING IN DOUBLE TIME.
1. The double march.

Double—March.
Step off with the left foot and double on the toes with easy swinging strides, inclining the body slightly forward, but maintaining its correct carriage. The feet must be picked up cleanly from the ground at each pace, and the thigh, knee, and ankle joints must all work freely and without stiffness. The whole body should be carried forward by a thrust from the rear foot without unnecessary effort. The heels must not be raised towards the seat, but the foot carried straight to the front and the toes placed lightly on the ground. The arms should swing easily from the shoulders and should be bent at the elbow, the forearm forming an angle of about 135 degrees with the upper arm (i.e., midway between a straight arm and a right angle at the elbow), fists clenched, backs of the hands outward, and the arms swung sufficiently clear of the body to allow of full freedom for the chest. The shoulders should be kept steady and square to the front and the head erect.

2. The halt.
Squad—Halt.

As in Sec. 22, 2, at the same time dropping the hands to the position of attention.

3. Marking time.
Mark—Time.

As in Sec. 22, 5, the arms and hands being carried as when marching in double time, but with the swing of the arms reduced.

25. THE SIDE STEP.
1. Right or Left Close—March, or

—Paces Right or Left Close—March.
Each man will carry his right foot 14 inches direct to the right, and instantly close his left foot to it, thus completing the pace; he will proceed to take the next pace in the same manner. Shoulders to be kept square, knees straight, unless on rough or broken ground. The direction must be kept in a straight line to the flank.

2. The halt.
Squad—Halt.

On the command Halt, which will be given when the number of paces has not been specified, the men will complete the pace they are taking, and remain steady.

Note.—Soldiers should not usually be moved to a flank by the side step more than 12 paces.

26. TURNING WHEN ON THE MARCH.
1. Right—Turn.

Each man will turn in the named direction, and move on at once without checking his pace.

Note.—A soldier will always turn to the right on the left foot, and to the left on the right foot. The word turn will be given as the foot on which the turn is to be made is coming to the

ground; if it is not so given, the soldier will move on one pace and then turn.

About—Turn.
The soldier will turn right about on his own ground in three beats of the time in which he is marching. Having completed the turn about the soldier will at once move forward, the fourth pace being a full pace.

3. Right—Incline.
On the word Incline, make a half-turn in the required direction.

SQUAD DRILL IN SINGLE RANK.
27. FORMATION OF SQUADS IN SINGLE RANK.

Men will only be dressed after the word Halt when a correction of the alignment is necessary.

28. NUMBERING A SQUAD.
Squad—Number.

The squad will number off from the right, the right-hand man calling out "One," the next on his left "Two," and so on.

30. OPENING AND CLOSING A SQUAD.
1. Open Ranks—March.

The old numbers will take two paces forward; when the paces are completed the men who have moved (except the right-hand man of each rank) will look to the right and correct the dressing quickly, looking to the front as soon as the dressing is correct.

2. Re-form Ranks—March.
The old numbers will step back two paces; when the paces are completed the squad will dress without orders, as in Sec. 28.

31. MARCHING IN SINGLE RANK.
1. By the Right (or Left) or by No.

Quick—March.
As in Sec. 22. Each man will preserve his position in the general line by an occasional glance towards the direction man, who will act as in Sec. 21, 4.

2. By the Right (or Left) or by No.
Double—March.

As in para. 1 above, but in double time.

1. Double—March.
Complete the next pace in quick time and then continue in double time as in Sec. 21.

2. Quick—March.
Complete the next pace in double time and then break into quick time, dropping the arms to their usual position.

32. THE DIAGONAL MARCH.
Right—Incline.

Each man will make a half turn in the required direction and, if on the march, will move diagonally in that direction.

34. CHANGING DIRECTION.
Right—Form.

The right-hand man will make a full turn in the required direction, and the remainder a half turn.

Quick—March.
The right-hand man will mark time and the remainder will mark time when they come up into the new alignment.

Note.—Should the squad be required to halt on reaching the new alignment the command will be preceded by the caution At the Halt; each man will then halt and take up his dressing on reaching the new alignment. If the squad is on the move the command Quick March is omitted.

Forward.
The squad will move forward in the new direction.

Note.—Forming at any angle will be practised. If necessary, the first three men may be dressed at the required angle and the remainder be ordered to form upon them.

35. MARCHING AS IN FILE.
1. From the halt.

Right—Turn.
As in Sec. 17. The men will now cover each other exactly. The head of the man immediately in front of each soldier, when he is correctly covered, will conceal the heads of all the others in front of him.

The whole will step off, without increasing or diminishing the distance between each other.

Note.—This will also be practised on the move, the words Quick March being omitted.

2. Changing direction.
Right—Wheel.

The leading man will move round a
